EDUCATION

Nandha Engineering College, Erode, Tamil Nadu

Bachelor of Technology in Artificial Intelligence and Data Science.

CGPA: 9.36/10

Expected Graduation: September 2027

The Richmond Matriculation Higher Secondary School, Seenapuram, Perundurai.

Higher Secondary Percentage: 87.83%

TECHNICAL SKILLS

Programming: Java, Python.

Design: UI/UX Design (Certified - Coursera).

AI & DS: Machine Learning, Deep Learning, Time Series Forecasting.

Data Handling: Data Visualization, Web Scraping.

Tools & Platforms: Git, GitHub, Tableau.

PROJECTS

AI-Powered Smart Healthcare Management System – Built a healthcare platform with role-based access, patient/doctor management, and analytics dashboards to streamline healthcare operations.

Restaurant Management System – Developed a restaurant management system with order processing, billing, and profit tracking for efficient business operations.

Quantum Fiscal Management Portal – Designed a financial management portal to securely manage transactions, expenses, and financial records.

Stock Price Prediction using LSTM – Built an LSTM-based deep learning model to predict stock prices and visualize actual versus predicted trends.

Voice Assistant – Developed an AI-powered voice assistant using speech recognition for voice-based task automation.

IoT-based Accident Detection and Alert System (Offline) – It identifies vehicle accidents and sends emergency alerts without requiring internet connectivity, improving safety and response time in remote areas.

EXPERIENCE

Training Trains , (Data Science) ,Perundurai, Tamil Nadu

Internship Duration: 2 Weeks

June 2025 – July 2025

Performed **data cleaning, pre-processing, and visualization** using real-world datasets.

Applied **web scraping techniques** to collect and process structured data.

Collaborated with mentors to develop scalable, data-driven solutions.

Ether InfoTech ,(Data Analytics) , Coimbatore, Tamil Nadu

Internship Duration: 2 Weeks

December 2025 - January 2026

Worked on **real-time data analytics projects** involving data preparation and analysis.

Generated actionable insights through visualization and reporting techniques.

CERTIFICATIONS & WORKSHOPS

Deep Learning – Workshop (April 2024)

UI/UX Design – Coursera.

Paper Presentation - Bluetooth Controlled Devices

Solved **250+** coding problems on LeetCode.

LEADERSHIP & ACTIVITIES

Second Prize (College Level) – Theme Drawing Competition.

Joint Secretary, AI & DS Department (2025) - Coordinated 5+ departmental events, including a 24-hour interdisciplinary hackathon, Aura'25, Teachers' Day, Ayudha Pooja, and Navratri celebrations.

Active in sports – Throwball , Kho–Kho.

STRENGTHS

Communication & Presentation.

Leadership & Team Management.

Analytical Thinking.

Problem-Solving.

Adaptability.
